VINSKA KARTA WINE LIST

DRAGI GOSTI,

Dobrodošli u restoran Zinfandel's, nazvan po istoimenom popularnom kalifornijskom vinu koje potječe upravo iz Hrvatske, od vinske sorte grožđa crljenak kaštelanski ili tribidrag.

Sve je počelo tridesetih godina devetnaestog stoljeća kada je ova sorta stigla na Istočnu obalu Sjedinjenih Američkih Država iz Carskog rasadnika u Beču. Trebalo je proći još stotinu godina prije nego što su tridesetih godina prošloga stoljeća zasađeni prvi vinogradi zinfandela na Zapadnoj obali. Od tada više nije bilo nikakvih dvojbi niti za vinogradare niti za ljubitelje vina - u Kaliforniji zinfandel doživljava svoj procvat. Danas se zinfandel sadi i u mnogim predjelima svijeta, kao što su Južna Amerika, Južna Afrika i Australija.

Već 1967. počelo je istraživanje porijekla zinfandela. Ono je dugo vremena predstavljalo pravu zagonetku za znanstvenike, koji su isprva smatrali da potječe od talijanske sorte "primitivo" iz Puglie. Nakon dugotrajnih istraživanja provedenih diljem Jadranske obale naposljetku je utvrđeno da su korijeni ove sorte u Hrvatskoj. Prvi "osumnjičenik" bio je plavac mali. Međutim, nakon dugogodišnjih ispitivanja nekoliko stotina uzoraka DNK-a sa sigurnošću je potvrđeno da se zinfandel razvio iz hrvatske sorte grožđa crljenak kaštelanski.

Sada, kada je ova tajna razjašnjena, prepustite se čarima naše vrhunske kuhinje kao i nenadmašnoj ponudi naših podruma.

DEAR GUESTS,

Welcome to the Zinfandel's restaurant, named after the popular Californian wine, which has its origins in Croatia, in the wine grape variety Crljenak Kaštelanski or Tribidrag.

It all began in the 1830s, when this variety came to the East Coast of the United States from the Imperial Nursery in Vienna. And it took another hundred years for the first Zinfandel vineyards to be planted on the West Coast in the 1930s. Since then, there has been no doubt for wine growers or wine fans alike - Zinfandel reached its peak in California. Today, Zinfandel is planted in many areas of the world, such as South America, South Africa and Australia.

Studies on the origins of Zinfandel started in 1967. For a long time, it was a real mystery for scientists; at first they believed it derived from the Italian variety Primitivo from Puglia. After lengthy studies conducted along the Adriatic coast it was finally determined that the roots of this variety are in Croatia. The first 'suspect' was the 'Plavac Mali' variety, but after years of examining hundreds of DNA samples it was definitely confirmed that Zinfandel developed from the Croatian variety Crljenak Kaštelanski.

Now that this mystery has been clarified, you can enjoy the charms of our superb cuisine and the exquisite offer from our wine cellars.

O HRVATSKOJ

Dopustite da vam u nekoliko rečenica predstavimo Hrvatsku, njene osebujne vinogradarske regije i autohtone sorte vina.

Hrvatska je uistinu posebna zemlja, sastoji se od profinjene kontinentalne konfiguracije te prelijepe jadranske obale s 1246 otoka. Ova mala zemlja je poput ogrlice - prepuna različitih vinskih bisera, koji rastu okruženi nadahnjujućom ljepotom ove zemlje.

Vina u Hrvatskoj dolaze iz tri vinogradarske regije - primorske, kontinentalne istočne i kontinentalne zapadne, unutar kojih se nalazi čak dvanaest podregija. Klima je ovdje mediteranska i umjerena kontinentalna s tri različite mikroklimatske zone za proizvodnju vina s pripadajućim tlima, što vinima daje izvrsnost i bitnu različitost. Pored iznimno dobrih klimatskih uvjeta za proizvodnju vina, Hrvatska ima mnogobrojne autohtone vinske sorte grožđa iz kojih se proizvode vina jedinstvenih okusa i visoke kakvoće.

U hrvatskom vinogradarstvu i vinarstvu zastupljene su sve vodeće međunarodno priznate vinske sorte koje na ovim prostorima daju vina izražajnih osobnosti. Rezultat svega je proizvodnja više od 600 različitih vina u malim ili većim serijama. To je dobar razlog da upravo ovdje, na izvoru, uživate u osebujnim vinima i profinjenim jelima.

ABOUT CROATIA

Allow us to bring Croatia closer to you and to introduce, in a few sentences, the country, its distinctive winegrowing regions and indigenous varieties of wine grape.

Croatia is truly a special country, made up of sophisticated continental landscapes and the beautiful Adriatic coast, with 1246 islands. This small country is like a necklace, abundant in different varieties of pearls, which grow surrounded by the inspiring beauty of this country.

Croatian wines are grown in three wine-growing regions - the coastal, continental eastern and continental western regions, divided into twelve sub-regions. The climate areas here are Mediterranean and moderate continental, with three different micro-climatic zones appropriate for wine production, with the pertinent soil, giving the wines excellence and their essential distinction. Beside the exceptionally adequate climatic for the production of wine, Croatia has numerous indigenous wine grape varieties which are used to produce wines of unique flavour and high quality.

All the leading internationally acknowledged wine grape varieties are represented in Croatian wine-growing and wine production, and the climate gives them their strong individual quality. The end result is the production of over 600 different wines in smaller or larger series. That is a good reason for you to enjoy the distinctive wines and sophisticated dishes, right here at the source.

HRVATSKA VINA U BIJELOM

U kontinentalnoj Istočnoj Hrvatskoj, u najistočnijoj regiji, nalazi se Hrvatsko Podunavlje, gdje su smještene tri vinogorja - Baranja, Erdut i Srijem, koji konfiguracijom podsjećaju na francusku Burgundiju, s varijacijom nadmorske visine od 100 do 240 m. Ondje su najrasprostranjenije bijele vinske sorte **graševina** i **traminac**, zatim **rajnski rizling**, **zeleni silvanac**, **pinot sivi**, **sauvignon** i **chardonnay**. To su vina moćnih i raskošnih tijela s pješčanim tragovima tla s kojeg dolaze. Vino od iločkog traminca jedno je od najboljih ove sorte: posluživano je prilikom krunidbe kraljice Elizabete na engleskom dvoru. Zapadno u Slavoniji nalazi se najpoznatija Požeška Zlatna dolina okružena planinama Psunj, Papuk, Krndija i Dilj. Ondje su smještene i najznačajnije vinarije s proizvodnjom bijelih vina skladnih i strastvenih tijela.

U kontinentalnoj zapadnoj vinogradarskoj regiji nalaze se podregije - Moslavina, Prigorje-Bilogora, Zagorje-Međimurje, Plešivica i Pokuplje, u kojima su najzastupljenije vinske sorte **graševina**, **kraljevina** i **škrlet**. Od međunarodnih vinskih sorti tu su prisutni **pinot bijeli**, **chardonnay**, **sauvignon** i **zeleni silvanac**. Na ovom širokom prostoru proizvode se gotovo sve vrste i svi tipovi svježijih bijelih vina, od mirnih, do izvrsnih pjenušavih, likerskih, aromatiziranih (samoborski Bermet), desertnih i predikatnih vina.

Primorska vinogradarska regija, smještena duž razvedene jadranske obale s brojnim otocima i zaleđem u pojasu je mediteranske klime, a broji šest podregija - Istru, Hrvatsko primorje, Sjevernu Dalmaciju, Dalmatinsku Zagoru, Srednju i Južnu Dalmaciju. Ovdje su glavne sorte **malvazija istarska**, **muškat momjanski**, **vrbnička žlahtina**, **debit**, **grk**, **maraština** (Prošek - desertno vino), **kujundūša** i **vugava**. Ove autohtone vinske sorte daju osebudna vina, od svježih, lepršavih do onih moćnih, koja se izvršno sjedinjuju s jelima koja pružaju bogatstvo Jadranskog mora i kontinenta.

CROATIAN WINES IN WHITE

*In eastern continental Croatia, in its most eastern sub-region, we find Croatian Podunavlje (the Danube valley area), which is home to three wine-growing areas: Baranja, Erdut and Srijem, the configuration of which resembles that of French Burgundy, with a height variation of between 100 and 240 m above sea level. There, the most widespread varieties are white wines: **Graševina** and **Traminac**, followed by **Rajnski Rizling**, **Zeleni Silvanac**, **Pinot Gris**, **Sauvignon** and **Chardonnay**. These are wines with heavy and luxurious body with sandy traces of the soil from which they originate. The wine of the Ilok Traminac grapes is one of the best of its kind: it was served on the occasion of the coronation of Queen Elisabeth II at the Royal Court. To the west, in Slavonia, lies the renowned Požega Golden Valley surrounded by the mountains of Psunj, Papuk, Krndija and Dilj. Major wineries have also found their places there producing white wines of balanced and passionate bodies.*

*In the western continental wine-growing region, the sub-regions are Moslavina, Prigorje-Bilogora, Zagorje-Međimurje, Plešivica and Pokuplje, with **Graševina**, **Kraljevina** and **Škrlet** being the most represented wine varieties. Among the international wine varieties, here are **Pinot Blanc**, **Chardonnay**, **Sauvignon** and **Zeleni Silvanac**. In this wide area, almost all varieties and all types of refreshing white wines are produced, from still wines, to excellent sparkling wines, aromatised (Samoborski Bermet) and dessert wines and predicated wines.*

*The coastal wine-growing region, situated along the greatly indented Adriatic coast with its numerous islands and hinterland, is located in the Mediterranean climate zone, and has six sub-regions - Istria, Croatian Primorje, North Dalmatia, the Dalmatian hinterland, Central and South Dalmatia. The main wine grapes are **Malvazija Istarska**, **Muškat Momjanski**, **Vrbnička Žlahtina**, **Debit**, **Grk**, **Maraština** (Prošek - dessert wine), **Kujundūša** and **Vugava**. These indigenous wine varieties produce distinctive wines, from the light bodied, breezy to the powerful bodied wines, which pair splendidly with the dishes provided by the abundance of the Adriatic Sea and continent.*

CRVENA I ROSÉ VINA
RED & ROSÉ WINES

HRVATSKA VINA U CRVENOM

Vina crvenih vinskih sorti zastupljena su u proizvodnji u svim hrvatskim vinogradarskim regijama. U kontinentalnoj regiji proizvodi se 30 posto crvenih vina, a najzastupljenije crvene vinske sorte su **frankovka** i **portugizac**, **cabernet sauvignon**, **merlot**, **pinot crni** i **syrah**. **Portugizac** je autohtona sorta od koje se proizvodi crveno vino u podregiji Plešivica i pije kao mlado vino, poput Beaujolaisa u Francuskoj. Crvena vina ove regije nešto su svježija i elegantnija, osjetne mineralnosti, dok su crvena vina s istočnog dijela Hrvatske mirisno diskretnija i tjelesno zaokružena.

U **primorskoj vinogradarskoj regiji** proizvodi se 60 posto crvenih vina u odnosu na proizvodnju bijelih vina, a najrasprostranjenije su autohtone sorte - **teran**, **babić**, **plavac mali** i **plavina**, dok su od međunarodnih crvenih vinskih sorti prisutni **cabernet sauvignon**, **cabernet franc**, **merlot** i **syrah**. Teran se nalazi u Istri, a daje crveno vino izrazite svježine, strukturno lakše, u okusu s izraženim taninima koji mu ponekad daju pomalo opor okus. Teran se najbolje slaže s pečenom janjetinom, odreskom od boškarina i zrelih ovčjim sirom s tartufima. Postoji zapis o teranu još iz rimskog doba, gdje se navodi da je majka cara Klaudija doživjela duboku starost upravo zahvaljujući vinu proizvedenom od ove sorte. Babić je autohtona crvena vinska sorta od koje se proizvodi vino duboke crvene boje, mirisom podsjeća na višnje i suhe šljive, moćnog je tijela i vrlo pitko. Najpoznatija vina od babića dolaze s primoštenskih terasa, tzv. terada. Plavac mali je izravni potomak dalmatinskih crvenih vinskih sorti crljenak (zinfandel) i dobričić. Od plavca malog proizvode se najpoznatija i najbolja hrvatska vina kao što su: Dingač, Postup, Stagnum, Zlatan Plavac, Plavac Mali Murvica i još mnoga druga. U 19. stoljeću, kada je filoksera uništila vinograde u Francuskoj, Dalmacija je onamo izvozila svoja vina, a Francuzi su, kušajući dalmatinska vina, zaključili da iz Dalmacije dolaze vatrena vina.

CROATIAN WINES IN RED

*Red wines are produced in all Croatian wine-growing regions. In the continental region, red wines account for 30 percent of production, with the most widespread red wine varieties being **Frankovka** and **Portugizac**, **Cabernet Sauvignon**, **Merlot**, **Pinot Noir** and **Syrah**. **Portugizac** is an indigenous variety used to produce red wine in the sub-region Plešivica, and usually consumed as young wine, like Beaujolais in France. The red wines of this region are somewhat fresher and more elegant, with considerable richness of mineral notes, while the red wines from the eastern part of Croatia are more discrete in scent, with well rounded bodies.*

*In the **coastal wine-growing region**, 60 percent of the wine produced is red, with the most widely represented varieties being local: **Teran**, **Babić**, **Plavac Mali** and **Plavina**. Among the international red wine varieties are **Cabernet Sauvignon**, **Cabernet Franc**, **Merlot** and **Syrah**. Teran is from Istria, and produces red wine which is distinctively refreshing, lighter in structure, and its flavour offering distinguished tannins which sometimes give it astringent taste. Teran best pairs with roasted lamb, Istrian ox ("Boškarin") steak and mature sheep cheese with truffles. There are accounts of Teran dating back to ancient Roman times, stating that the mother of the Emperor Claudius lived to a very old age thanks to the wine produced from this variety. Babić is an indigenous red grape variety which produces a very smooth heavy body wine of deep red colour, with the aroma of sour cherries and prunes. The best known wines made from Babić derive from the terraces of Primošten, known as the terade. Plavac Mali is a direct descendent of the Dalmatian red grape variety Crljenak (Zinfandel) and Dobričić. Plavac Mali is used to produce the best known and finest Croatian wines such as Dingač, Postup, Stagnum, Zlatan Plavac, Plavac Mali, Murvica and many more. In the 19th century, when Phylloxera destroyed the vineyards in France, Dalmatia exported its wines there, and the French, having tasted the Dalmatian wines, concluded that Dalmatia produces ardent wines.*
