The Esplanade Hotel has recently introduced the possibility of **renting a portable mini router** to its guests which allows them to surf care-free anywhere in Zagreb and Croatia at an incredible price of only 45 KN (6 €\*) per day.

Guests at the Esplanade can simply rent their own personal portable device at the hotel reception or upon request when booking accommodation in advance. The portable device is wireless, small and practical and can be used to quickly connect to an Internet network within 100 m. Then mini router supports simultaneous connections of up to ten mobile devices namely smartphones, tablets or laptops. The ideal solution for friends, family or a small group of guests. The battery lasts up to several hours and guests with the device also receive a power connector for the car. The device can be used while strolling around the city or while driving throughout Croatia.

The Esplanade continues to underline its position as a leader in hospitality standards. By constantly introducing new ideas and adapting its offer to follow new trends, it exceeds the expectations and needs of today's guests.

*"We strive to follow our tradition of providing excellent services and also keep track of new trends and the needs of today's guests, as well as the development of new global technologies. In light of this, in recent years we have invested in new technologies to improve the quality of our guests stay. In all areas and on the terrace, Esplanade guests can use superfast free wireless Internet - which for today's modern guest counts as one of the most important features. We recognized the need for foreign guests for the same quality of connectivity to the Internet and equally outside the hotel. This is how we came up with the idea of WiFi2Go - a simple way to allow guests to be conveniently connected to the Internet anywhere in the region. Get access to information as you explore the city streets and museums, livestream your experiences or simply share great moments with friends and family." said **Ivica Max Krizmanić, General Manager of the Esplanade Hotel.***
